

Award for Integrated IT System

Standard Chartered Bank awarded HeidelbergCement Bangladesh Limited recently in a ceremony held at a local hotel for successful integration of IT Systems between two companies in 2010.

HCBL Team along with the crest with SCB Team

This integration involved making changes in HCBL's IT processes and systems so that data sent from HCBL is being received at the bank's end in a format compatible with that of bank. In turn, this has allowed reconciliation to be done automatically which is a huge benefit to HCBL.

This is to be mention here that HCBL is the first company in Bangladesh to have such integrated IT system with Standard Chartered Bank Bangladesh.
