

ScanCement Signs Agreement with Gerico Bangladesh

HeidelbergCement Bangladesh Ltd (HCBL) & Gerico Bangladesh signed an agreement. In the course of this agreement Gerico Bangladesh will use **ScanCement** for the Construction of “**Feed Plant, at Gazipur**”. The production capacity of Feed Mill will be 75 MT per hour, where 8 concrete silos will be constructed having capacity 6000MT each to store finished products. Total estimated cement consumption will be 5000 MT (approximately) in 14 months.

Mr. Ramakanta Bhattacharjee, DMD of HeidelbergCement BD Ltd & Philippe Bechtel, Area Manager, Gerico Bangladesh have signed the agreement on behalf of the companies. Engr Md. Fakhrul Islam, Head of corporate sales (HCBL) was also present in the ceremony.

ScanCement & RubyCement are two brands of HeidelbergCement Bangladesh Ltd., a subsidiary company of Germany based HeidelbergCement Group.

Many of the significant & outstanding establishments of Bangladesh were built by using Ruby or Scan cement namely- Shah Amanat (3rd Karnaphuli) Bridge, Mohakhali Flyover, Lalon Shah (Pakshi) Bridge, Shah Amanat, International Airport, Shikalbaha Power plant, Bijoy Sarani- Tejgaon Railway OverPass, Bahaddarhat Flyover (On going), Etc. Currently ScanCement is being used for building Gulistan-Jatrabari Flyover.
